THOS, B. MOORE, Jr., See, of State. The distinguished Senator from Ala-

banna, Hon. J. P. Benjants, has published at letter in which he declares—

1. That the feeling of a very large number (II not a majority) of the people of the North is utterly hostile to our interests; that this feeling has been instilled into the present generation from its lulancy; that it is founded on the mistaken belief that the people of the North are responsible for the existence of slavery in the South; that this conviction of a personal responsibility for what they erroneously believe to be a sin, springs chiefly from the consideration that they are, with us, members of a common Government, and that the Union itself is thus made the principal cause of hostile interference by them with our institutions.

4 That to effect this purpose separate State action is virtually messarge. That all attempts at concerted action snould be reserved for the work of reconstructing a Government. Concert of action amongst manerous independent states is the result of long and patient efforts to reconcile divergent interests and harmonize conflicting opinions. The emergency does not aomit of this delay, unless the South is prepared to submit to the degradation of seeing Lincoln peocefully thangursted as its President as well us that of the North. He adds: The opinions thus hurriedly expressed

have been deliberately formed. They have been gradually forced upon me by inter-course with the accredited representatives course with the accredited representatives of Northern sentiment, and each day atlat to my conviction of their truth. Indeed, if the faithful and persistent efforts of the present distinguished Chief Magistrate, se to administer the Government as to give us safety within the Union have been removed. indeed, if we entertain the remotest hop tame submission to the rule which our en emirs propose to inaugurate.

I have only to say in conclusion, that i

[Special Dispatch to the New York Times.]

Washindron, Dec. 24.

The excitement growing out of the robhery of the Indian Trust Funds increases, and, as nonerous reports are entrent implicating parties of high position, I have possessed myself of all the facts known, and, in justice to all parties, beg to give them in detail:

On Thursday last, Bailey communicated the fact of the larcency to Secretary Floyd, and begged his addres. Floyd replied that he had no advice to give, but that, on Secretary Thompson's return, the unstershould be thoroughly Investigated. It is supposed that Bailey anticipated that Floyd would silvise secreey, but, fluding himself mistaken, he at once determined to communicate the case to Thompson's request was present during the examination of the records and bonds.

was present during the examination of the rece rds and bonds.

Bailey's statument to Thompson is, that he was persuaded to loan the bonds to be hypothecated for money, with which to meet certain acceptances of Floyd's—Bailey's wife is a very distant connection of Mrs. Floyd—hence he was anxions, he says, to protect Floyd's honor, although no intimacy whatever existed. Floyd demanded to know of him why he did not consult hlm (Floyd) or make some inquiry. Bailey said he called once to do su, but as the Governor was busy he did not wish to interfere with his arrangements. Floyd then asked why he did not sendhim word by Russell, with whom he was dealing. Bailey replied that on one occasion he proposed to Russell to mention the transaction to Floyd, but that Russell said, "Floyd would shoot me! If he knew of our transaction."

It has been discovered within a few days, that two unilion of dollars are missing from the United States. Treasury that is not meanted for on the books. The circks have been binsy ever since the discovery, searching the hooks to secretain whether an actual robbery has been committed to the above named amount or not. The matter is not yet known to the public, but the officers of the Government are in the secret and very much exercised, fearing the report may prove true right upon the excitement consequent upon the robbery has hear of Congress are anspicious that a general grid game is going on in the various Departments of the Government, in view of the prospective dissolution of the Union; and the belief is strengthened greatly by the events of a day or two, and it is seriously contemplated to institute a thorough Investigation into the affairs of each hursen of each forthe Departments. Congress could not be engaged in a better work, for there is no doubt that the suspicion of members referred to is justily grounded.

Letter from a Well-Enown Citizen to Gov. Magodin. We print this morning a carefully pre-pared and well considered letter from Hon. THOMAS W. RILEY, of this vicinity, to Gov.

Mr. Ritty is an old and honored citizen an emment lawyer, a distinguished politi cian, and possesses as a very great degree the confidence of his sellow-cluzens. For times elected Representative to the State Legislature, over the Lower House of which he once presided as Speaker, and always an opponent of the Democratic party, 2s parties have heretofore been constatuted, his opinions now will have great weight w.... many who are too much disposed to cling to abstractions, and theories and prejudices, at the expense of the dearests interests of the country.

We particularly commend Mr. RILEY's letter, without wishing to be understood as indorsing it, to those with whom he has been polically associated, and whose good opin.ou. respect, and confidence he has so well carned and so justly received.

Thomas W. Riley to Governor Magodius.

Kimbo Hill, Dec. 22, 1860.

To His Excellency, Governor Magodius:

Since the Institution of civil Lovernments among men, no nation of people have ever found themselves placed under circumstances of greater culburnassinem, difficulty, and danger than now surroinal and threatyn the people of the Inited Statys. The vauses that have produced this unlappy state of things are palpable to all; they arise out at the want of still felicial power in the Federal Government to control the unmerous members of which it is conjussed; and though this defect in our organic law may be one that many good and partiotic men have long endeavored to conceal from themselves and the world yet it was as apparent to the tramers of the Federal Constitution seventy-three years ago as it is to us now, who have seen its strength tribed and its weakness made nost impotent members of the confederacy. If any Illustration of this sail truth were meessary, it is found in the ntier inability of the Lovernment to execute its laws in any State of the Union, and this seems to be so well understood that many of the States, North and South, have with impounity canceted laws and imagnated measures, in their accerteging capacity, in open and direct violation of the Federal Constitution, or that the probability of the Constitution, or that the probability of each events escaped the sagacious minds of Washington, and Franklin, and Hamilton, and Madian.—But the segret and good men and their compartors had the contend with a difficulty incident to all free Governments; and that is a just and safe position of powers between the Government and the people was a law and in laying the foundation of a lapscantail only in proposition of the form and the press; and in laying the foundation of a lapscantail power to their lask clogged and hampered by a popular jealously thateomyella dither set openion their work that the lustrument should contain but a few scattering greater of powers, to further work that the lustrument should

granted. This, through not the apparent theory of the Constitution, nor the luter-protation given to it by the most probound doctors of constitutions haw, is nevertheless the practical construction of the day, in pursuance of which, precedents are set that confounds the logic of Weister, and sets the example of Jackson at defaunce—Hencewersee that though the Constitution contains express provisions that "Congress shall have power to key and collect taxes, duties, imports, and veckses," and that ingitive slaves "shall be given up not claim of the party to whom their service or labor is due," yet many of the Free States of the Union, in defaunce of the plain provisions of the personount law of the land, have passed Acts of Assembly making it telony in any cilizen who adde in carrying the provisions of the Constitution into effect, or in any manner assit is the efficient of the Federal Lovernment in the carcention of laws exacted pursuant threts, while one Southern State at least candinauly others are programing to follow its lead has, in a State Convention, solemnly withdrawn from the Union, boldly asserted and assumed all the rights and powers incident to Independent soverighty, and annulled the authority of the Federal Government within her borders.

There is scarcely a man of respeciable talents and character in the Union or onl of it, but deales the legal or moral power of any of those states thus to act but they have so acted, and what is the reme day; and what are to be the consequences of the remedy is not applied; or bring applied, shall rail in its effect? If we look to the Constitution we are thought to the constitution we are thought to the constitution of the power vested by the Conciliation in the tovernment of the United States, and the power to Congress "To provide for bring applied, shall rail in its effect? If we look to the Constitution in the tovernment of the Constitutional remedy; in vertically declares the inability of the Pederal authorities, in such energy necessity of the Pederal authorit

posed.
South Carolina having secreted and with drawn horself from the Federal Loose, holsted her independent banner, armed her citizens for reds by force, even to the shading of blood, the outhority of the supreme law, and the Federal covernment having declared its inability to compel her to return to her aliegiance to the Constitutions and the Union, a question might arise whether the Union is not thereby practically disrupted, and whether the remaining States are longer tomal by the Federal Constitution. But I propose to deal with fact only as they exist—lacts deal with feets only as they exist-lets that vancers us men and Kentucklans, responsible for any abuse or neglect of our apportunities to do good in our day and

ried to such lengths, that it is us much as the master's hile is worth to attempt to regain his property in a peaceful, legal, and constitutional manner. And now when it is apparent that the south is about to adopt the only method that is left her, to wit: peaceable of about to adopt the only method that is left her, to wit: peaceable exparation from those with whom she can no longer live in peace, the people of those states assemble in great multitudes called off in ion meetings," and pass resolutions manimously, avowing their unadterable devation to the Union of these States, and their honest intentions to observe the prodsions of the Constitution, and kithidally excente the laws of Congress. It is no late. It is too lar short of the duty of men devoted no the Union. They must go one step further—they must meet in their rejistative halds and repeal their Persmal Laberty Laws, and in their stead they must pass laws for the extradition of slaves, and to punish by confluence in their stead they must pass laws for the extradition of slaves, and to punish by confluence in their stead they must pass laws for the extradition of slaves, and to punish by confluence in their stead they must pass laws for the extradition of slaves, and to punish by confluence in their peniteritaries the rabble that obstructs the execution of the supreme law of the large continuous. If the holtmalron which he was swagering mountebank would subside ingloriously in the holtmalron which he was thrown moward by the boiling of the political cauldron. And this they must do now, or find another markee for their notions, and another table tilters, spiril rappers and their freedove emissarles that have so long in tested the South, and drained it of infilious to be comployed in constructing underground rolitrans.

But while I admit that South Carolina ound railroms. But while I admit that South Carolin

But while I admit that South Caroline has so much, in common with the other staveholding Stores to pulliate her hasty intemperate movements, I cannot admit that it justifies severslou in the manny and form who has adopted, and I feel, as no doubt a great mulprity of Kentnekian level, the same aversion to the demagognic who have precipitated the State Into an attitude hostile by the Union, that I do the tracedd, seltish villainy and fanatleish that provoked it. hat provoked it.

But South Carolina is out of the Union his is admitted on all hands, and so lar as fee act could be performed by the Executive of the Festeral floverunwit, her indicated as heen virtually acknowly algod, and so strongly do many others of he souther to States symmetries with lon-

In those six States, Kentneky Is the most exposed. Her Free State border of seven hundred mites adjoins three of the most populous. Republican States at the Union. When this Southern Confederacy shall be formed and established, and our glorious. Union, as it onwe existed, shall have ceased to be: when Kentneky shall be driven and easierly will be, to decide whether she will cast her lot with the North or the South, will she take for her alles and confederates but the Latter, her procalavery or her Abolition neighbors? Mexico was the worst of any on the comment.

Kellogg of Illinois, Tappan of New Hampshare, and Washburne in West orighe, cated against it.

The District Judge of New Mexico appeared before the Committee at the last meeting, and stated that the Territory and 7,500 white notive citizens, 2,000 Mexican efficient under the Kanadalunge Hadalo treaty, 3,000 Mexican affeits, 44,000 proofs and 44,000 proofs and 44,000 proofs and 44,000 proofs and 44,000 Indians about half exhibited. Total about \$9,600. There are 50 shares only, mostly servants of army and federal officers.

The question was trued in courast fact if New Mexico should be abuitted with only 2,750 while citizens what receive could be given for keeping Kaneas out with Hofoso. THE LOUISVILLE.-Cant. Ford has named his splendid new boat, now building for the New Orleans trade, the Louisville. It is a very appropriate and popular name, a name that cannot be forgotten. The Lou-tsville is to be a first class boat in eyery particular, combining power, size, and tsylleds to be a first class boat in every particular, combining power, size, and model to make her as fast as the tastest, while in capacity she will be about the size of the John Rame.

The Col. Judson, that arrived at New Orleans Saturday from Market Comp.

New Orleans, Saturday, from Yazoo river, reports having found the Gov. Powell hard aground at Point Leper, a short distunce above Bayon Sara, with a load of cotton, sugar, and molasses, bound for this port. The Judson tried to pull her off, but after making several ineffectual attempts to do so, she broke a large cable. The memorandum of the officers adds: "We the went ashore, made the boat fast, and launched the stage, with the intention of lightening her over the bar, but our crew at that moment became sensible of their rights, and jumped the boat, leaving us antirely helpless."

The New Orleans Delta of Sunday hast tass the following in regard to river natters, and a trial of speed between the new Natchez and the Mary Keene. Nearly two thousand persons were at the upper isanding yesterday, solely for the purpose of seeing the Natchez and Mary E. Kesue go out together at 5 P. M. Long before that hour, the wharf become densely erowded. The Keene had a band of music on board, whose playing endivened the scene. At about three minutes yest 50 chock the Natchez backed out, but did not straighten up as readily as we have seen her do ere this. The wild Tycoon came along at the time rither light, and helped to Imrease the length of the Natchez's delay. It was seven uninstee past 5 cre the boat was fairly in the channel and commenced ascending. The Mary E. Keene backed out a minute or two after the Natchez's but she was also delayed by the Yazoo, which lay just above her, backing at the same time. The Acad a also came from the foot of St. Louis circus also that time, and was keeping in company with the Yazoo. As soon as the Acada had passed, the Mary Keene backed out easily enough, and now the real content commenced. The Natchez was salured by the steamships at the foot of St. Joseph afreet when commenced. The Natchez was salured by the steamships at the foot of St. Joseph afreet when apposite. Business in the general market was rather better to-day, wing to the favorable news received by telegraph this eventule. Flour was firmer, though no advance was established in prices. The detasmd was better, and some 800 bils changed hands at prices ranging from \$4.50,025 u2 for apperfine to extra family grades. The receipts of wheat continue liberal, and all that arrives is readily taken by the millers at 90cg \$1 for red to white. The sales to-day reached 3,000 bushels. There is a good demand for corn, with sales of some 2,000 bushels at prices ranging from 48,054c. Outs remain quiet, with sales at \$25,55c. Whisky has advanced, with sales at \$1\frac{1}{2}cc. Within the last week there has been a very decided increase in Southern orders.

Whishy has advanced, with sales at 1445 c. Within the last week there has been a very decided increase in Southern orders for provisions, flour, and corn, sud most of the bonces in that trade report a bust ness rather in excess of last year. In grocerles there is no change to note, the demand for sugar being small to fill orders for the home trade, and the sales of sugar were limited, at big 7c for fair to choice New Orleans. There was rather a better feeling in the market for molasses, but the sales were small at 27(a)30c, the market closing stendy at 28c. Coffee is dull, with but little doing at 13(a)13/c. In large lots we helieve that prime Rio could be purchased at 12/c.

The feeling in the provision market to day was decededly better, with a fair inquiry for mess pork at \$15.50, but none could be purchased at less than \$16, and some of the packers did not care about aelling at that. There were no transactions in city packed, burs a lot of 335 hbis country packed was sold at \$15.00. At the close of the market there were more buyers than sellers about. The slight improvement in the money market, together with the favorable news received from abroad, has caused this firmness on the part of the packers; and this proves what we have heretofore stated, that if It were not for the stringency of the money market the prices of problems this year would

we have heretofore stated, that if it were not for the sttligency of the money mar-ket the prices of provisions this year would he much higher than last year, while they are lower. The demand for bacon con-tinues moderate, with sales to fill orders at the quotations given yesterday. There is nothing doing in green or bulk meat or lard. There are no logs offering, and con-sequently we hear of no sales. A ten-head were slanghtered to-day. The season here is about closed, with the number slanghtered about 180,000 head, which is 66,000 less than last year. About 45,000 have been slanghtered and packed in Madi-son, up to this date. THURSDAY, Dec. 27 .- SENATE .- A muniher of petitions were presented.

Mr. Rice presented a resolution and asked for its reference to the select Committee of Thirteen. It was so referred

militee of Thirteen. It was so referred without reading.

Mr. Green called for the order of the day—the Territorial business.

A bill was reported from the Committee on Territories to provide for the Territorial Government of Arizona, and taken up.

Mr. Green explained the bill. He said it was in the usual form, and there was nothing objectionable to it. It was a necessity for the Territorial Government there.

Mr. Brown moved to add a section that the act of the Legislature of New Mexico, for the protection of slave property be intoree in this Territory.

Mr. Trumhull moved to amend that the law which was in force in said Territory at the time of sunexation, remain in force until It hecomes a State.

Mr. Doulittie said we had lived together for eighty years in pence—prace was based

Mr. Doulittle said we had lived together for eighty years in pence—peace was based on two bleas—flist, that neither the Federal Government nor the citizens of non slaveholding States should make any aggression on slavery in the States, and the other that neither the Federal Government nor citizens of slaveholding States should make any aggressions nor undertake to overthrow freedom in the Territories. If these conditions were broken, there can not be peace. He said the Constitution was the supreme law of the land, of every State, and if the Constitution contains any language which conful abolish slavery in a Territory It would abolish it in a State. He then referred to the Dred Scott decision, and claimed that there was slavery in a Territory It would abolish it in a Siste. He then referred to the Dred Scott decision, and claimed that there was nothing in that decision to lead any one to infer that the Constitution establishes slavery in any Territory; nothing that justiles men in saying that the Constitution enters the territory acquired from Mexico, and abolishes Mexican law and establishes a law guaranteeing the right to take and hold shaves in this territory. He argued that if we should annex Caunda, the Constitution had no power of its own foractor repeat the law there in regard to slavery which had been in force one hundred years. He said the Senator from Tennessee (Nicholson) had said there was great alarm at the South from the free States, and said he apprehended the time would come when the free States would attempt to amend the Caustitution so as to extinguish slavery. Why did not the Senator from Tennessee, if he wished to aliay the alarm, quote in his speech that part of the Republican platform which declares an essential principle to be the maintenance of State Rights, in order to maintain the balance of power, and denonreces the Invasion of any State, no matter what the pretext may be. Why did not the Senator quote from the speeches of the President elect when he declared over and over again that he neither Intended now sheld to interfer

had expressed the apprehension that If the power of the Free States Increases, and they intend to carry out their purpose, it would lead to the utilinate extinction of alavery.

In relation to the article in the Boston Herald, Mr. Sievens said: It appears, on investigation, the young gentleman informed him to-day that these words were interpolated in Boston, showing a disposition most foni to slander for base political purposes, and to hreak down a political organization supposed to be adverse to that of the editor. In the New York World, the words, it is thought, appear in connection with the slander, and this is to injure the repunction of honorable men who were opposed to the irresponsible attacks of the foniand tilthy herd of men who endeavor to east their slime on men on whom they are not worthy to hook. It is the daty of the committee, if they can, to stop this defamation of character.

Mr. Morris, of Illinois, said that Mr. Stevens caded on him this morning, and expressed his desire that the subject be thoroughly investigated. He had no control over the matter, but would lay the matter before the Select Committee, but the giften in the metical properties be four in the metical properties. ow small would be the premi the loss and special property has advantages. Why did not the Senator quote from the speeches of the President elect when he declared over aud over again that he neither intended nor wished to interfere with slavery in the States.

Mr. Roollitte them read from Mr. Linkedon's speeches, where he had declared to interfere with slavery in the States. It helieved he had no hawful right to do so. Mr. Nicholson said he had stated that the Republican party had expressed above termination to regard the rights of Sontherm under the states, but he laid down a general principle outside of the State, which, if carried out, would destroy their lights in the States.

Mr. Roollitte said he understood the gentleman to say that he apprehended the Republican party would so lucrease in power that, at last, it would amend the Constitution so as to destroy the rights of the Sonth and emancipate the slaves.

Mr. Nicholson said the the policy and principles of the Republican party, if carried out, would extinguish slavery, and he had expressed the apprehension that If the power of the Free States Increases, and they intend to carry out their purpose, if would lead to the ultimate extinction of slavery.

Mr. Roollitie said the Republican party, if carried out, would extinguish slavery, and he had expressed the apprehension that If the power of the Free States Increases, and they intend to carry out their purpose, if would lead to the ultimate extinction of slavery.

THE LOUISVILLE

Eighteen Hundred and Sixty-One.

Tun events of the year before us will be fraught with a greater interest to the people of the whole country than those of the exciting period birough which we have just passed as theilling in their nature and as important in their results as they have been. For the first time in the history of our country, a political party, purely and strictly sectional, has suc-ceeded in electing the third Executive officer of the nation, and thus obblight controlled our of the nation, and thus obtained control of one department of the Federal Liovernment. This has alarmed the people of the other section, and precipitated movements looking to a dissolution of the Union. The whole rountry-and the people of all the States alike- are deeply and equally interested in what concerns the welfare of every American chizen, whether in the North or the South and whether in the North or the South, and whether at t ahroad. We are evidently surrounded by persis of no ordinary magnitude—dangers that may ured upon as in all their terrible reality at any barsi upon as in all their terrible reality at any hour. No man worthy of liberty can rest be naconcerned ignorance of events now daily oc-curring in all parts of the country, and a knowledge of these matters can best be ob
